Education

Graphic Era Hill University — Dehradun, Uttakhand
B.Tech in Computer Science and Engineering | CGPA: 8.9/10 — *Aug. 2020 – Present*

Experience

Mentorship Program — Jan. 2024 – Present
Jman Group — *Remote, Uttarakhand*

- Orchestrated the end-to-end development of a movie booking application using the MERN stack, showcasing proficiency in both frontend (React.js) and backend (Node.js, Express.js, MongoDB) technologies.
- Applied Agile development practices, ensuring rapid iterations, adaptability, and successful delivery of features in a dynamic environment.
- Collaborated cross-functionally to address intricate challenges, demonstrating effective communication skills crucial for successful teamwork in full stack development projects.

Full Stack Development Intern — May 2023 – Aug 2023
Lixotic Solutions — *Dehradun, Uttarakhand*

- Developed a responsive admin portal using React, increasing user satisfaction through an improved and user-friendly interface for managing administrative tasks
- Integrated server-side functionalities with Node.js, leading to a reduction in task completion time, ensuring secure access.

Projects

Pathfinding Visualizer | *React, Firebase, Git* — Jun 2021 – Oct 2021

- Accomplished the design and development of a web application to visually demonstrate various graph traversal techniques, including BFS, DFS, and Dijkstra's algorithm, facilitating an intuitive understanding of these concepts
- Facilitated a clear understanding of these algorithms for over 40+ students through interactive visualizations and educational content

E-Commerce Website | *React, Firebase, Javascript, Git* — feb 2022 – Apr 2022

- Developed a fully responsive E-Commerce website using React and Firebase, providing a seamless online shopping experience for users
- Established an intuitive order management system, allowing users to browse products, add items to their cart, and place orders efficiently
- Integrated secure payment processing functionality, enabling users to make transactions directly on the platform. Added payment gateways to ensure the safety and convenience of online payments for customers.

Blogging Website | *React, Nodejs, Expressjs, MongoDB, Git* — Jun 2023 – Nov 2023

- Developed a user-centric blogging website featuring robust authentication mechanisms, ensuring a secure and personalized experience for users to manage and authenticate themselves effortlessly.
- Created a streamlined platform enabling users to effortlessly share their thoughts and experiences on diverse topics. The system allows for efficient blog management, reflecting a user-friendly interface for a smooth blogging experience

Technical Skill

Languages: C/C++(Stl), Java, Python, SQL, JavaScript, PHP
Frameworks Libraries: React, Node.js, Express.js, Material-UI
Developer Tools: Git, VS Code, Postman, Github
Databases: MySql, MongoDB, Oracle
Others: HTML, CSS, Redux, RestApi

Achievement

Top 11% Leetcodes with max contest rank of **1733**

Awarded for **Prime Minister Scholarship** in 2020, 2021, 2022 & 2023.
